TED LAW COURTS. Supreme Court—Special Term.

Excision by non Junge Michell.

THE UTICA AD SCHENSTADY HALLINGAD.

High White against The Units and Schenectaly Railmond Company and Emission Company was incorporated in the year 1851 to make a railroal from Schenectaly on the vinth side of the Monark, as far as the village of lightum, and to terminate in the city of Utica at such pace as the Common Journal of that only should be gone. It was expressly made subject to the general revieword and inabilities prescribed by such part of the light court of the first part of the light of the court of the first part of the light court of the first part of the light court of the first part of the light court of the first part of the second securion that should be surject to afternion suspension and repeal, in the discretion of the legicalitie (I.R. S. 600, see 8.) Section 19 of the charter of this company also declares that "the Legicalitie unit any time after, modify, or repeal this act." The pointed has been a large 8.) Section 30 of the charter of this chargany also declares that whe Legistature may at any timeastee, modify, or repeal this set." The planning has been a large stockholder in this company to more than four years back. He compains that in April 1851 the Legislature passed a law authorizing say red-load expression in this state with the consent of two thirds in andom of its stock in the Great Western Educated company in changes, which is not an advertised the part of the consent of two changes are well to expect of the capital of such company or soming its credit or subscribing to stock, provided the catern termination of the read should be at some point on the Nagara river; and that the directors of the constant commany and had denoted the subscribing the state of the canadian commany and had denoted the subscribing the state of the canadian commany and had denoted the subscribing the state of the canadian commany and had denoted the subscribe the subscribing the state of the subscribing the state of the subscribing and the subscribing that the heir subscribing the su meeting in convention. In such orderly form as their legislature may prescribe may rimate their constitution as they will—also formed part of the charter, and limited the continuance of the section of the constitution last referred to, to such time as the people might, by their higher authentity repeals. It Thus the charter could read that it should not be altered, except by a two thirds with any their continuity and their constitution of 1846 eaver all the previously existing charters from being affected by that instrument. The section referred to treats of rights, and not of the mode of passing bulls, and substitutes for the old two third vote a new provision—namely, that a m jority of all the members elected (and no. of these present merely), shall be necessary. This is the mode provided for passing bils, which a relating to existing or future corporations—for there is no exception, and these relative to the control over its left as some of their passing bils, which a relating to existing or future corporations are secure as tong as their property as their control over its left as some of their control over its left as some of the form of the control over the left when the taw requires a majority of the member of the Control Appeals to unite in affirming a judgment and a subsequent law requires a majority of the member of the Control Appeals to unite in affirming a judgment and a subsequent law requires a majority of the member of the Control Appeals to unite in affirming a judgment relates to the constitution of the power reserved by the legislature in the Revised Statutes, and in this charter, and charter and the section of the legislature was a legislature. And in the charter

jugated hum-off; for it les to be ex-red-ed in the discrete of the Legislature. It is uneless throught, to argust that if this clause were not in the Revised Statutes or in the charier, there would be a constrant between the peut and the company, and also with the stockholder that the raily and shell be made from schemetary to Usagate the raily and shell be made from schemetary to Usagate the raily of the control of the co

three has deemed of to much importance to the public, as to give to it its sanction.

THE PROTECTION INSURANCE COMPANY.

Shepard &c., against Protection Insurance Company.—The defendants, a corporation doling business in the State of Connecticut, insured Holbrook & Co., residents of Massachusetts, against loss by lire. The property insured was desirroyed by fire, and after that, if. & Co assigned their claim to the present plaintiffs, who reside in this state. The question is missed, whather the defendants have a right to remove this cause to the Circuit Court for the Scuthern District of this State. It is said that, insemuch as these plaintiffs claim as assignees of a chose in action, and their assignors being residents of Massachuretts and not of this State, could not have sued in the U.S. Circuit Court in this State, these plaintiffs cannot sue in that case, and that Court would have no jurisdiction of the cause if it were removed there. The deventh testion of the cause if it were removed there. action, and their assegnors being residents of Messachuretts and not of this State, could not have sued in the
U.S. Clicusi Court in this State, these pointiffs cannot
sue in that case, and that Court would have no jurisdiction of the cause if it were removed there. The cieventh
section of the Judiciany act of 1750, gives juri-diction to
the Circuit Courts of the United States, in actions of this
kind, when the suit is brought, and a citizen or sucher State,
and if it had stopped here, that Court would clearly have
jurisdiction of this case; but it proceeds, in a subsequent
part of the same section, as Jodows.—Nor shall any
District or Circuit Court have seguizance of any suit, to
recover the contents of any promissary note or other
chose in action, in favor of an assignment note or other
chose in action, in favor of an assignment case of in
cases of foreign bills of exchange." This section preventis any District or Circuit Court from having any cogminance of a case like this, unless the suit might have
been presented in such court, if no assignment had been
made, if no assignment had been made, the action mist
have been brought in the names of the action mist
have been brought in the names of the action mist
have been brought in the names of the action
made and the such presented of the such action
was described by the such as a suit might have been
made, if no assignment had been made, the action mist
have been brought in the names of the action mist
have been brought in the names of the action
was the processor of the such is used.

Nor shall any District or Circuit Court have exprisence
of any suit, unless a suit might have been prosecuted under
the act of Congress in that particular court, and not to
men to allow jurisdiction if the action might have been
broughtin any District or Circuit Court have cognisance
of any suit, unless a suit might have been prosecuted to
make court, seems to exclude each court from any
experimental section was to show when and how a
court for court of the court of the i

mot impair a contract of its obligation. Solving in this decision interfered in the least, or was ever supplied to interfered in the least, or was ever supplied to interfered in the least, or was ever supplied to interfered in the least, or was ever supplied to interfered in the least, or was ever supplied to interfered in the least, or was ever supplied to interfered in the least of was ever supplied to interfered in the least, or was ever supplied to interfered in the least, or was ever supplied to interfered in the least, or was ever supplied to interfered in the least, or was ever supplied to interfered in the least, or was ever supplied to interfered in the least rotation of the least supplied in the least supplied to the power of the least of the least supplied to the power of the least supplied to the power of the least of the least supplied to the power of the least of the least supplied to the power of t

ade, and not to the plaintiff; that the plaintiff was thus dechanged and that the defendants claim for damages for the annotance was utterly fast four and unformand. The Court held that the interest only of the bond a suid he set off against the plaintiff a claim; that the defendant had failed as to residue of his dolence, and gave judgment for the plaintiff for \$79, with costs.

lichre bilde, lie her hard there there all and street.

Jenn 6 — John Edwards was put on trial indected for evening a dismost breating valued at 1500, the positive and the property of the pr

mise.

The prisoner, on his examination, stated he was intext. Cated, and knew nething about it.
Under the charge of the Judge, the jury immediately acquitted the prisoner, and he was discharged with an admonition.

acquitted the prisoner, and he was discharged with an admonition.

FLEADED COULTY.

Themas Wilson, a stordy looking youth, aged 15, pleaded guilty to a charge of burgiary in the first degree having entered the residence of Mr. Henry Uniten, 441 Greenwich street, on the night of the 18th of June, by climbing in through the faulight over the door, and stealing three dollars in coin, and other trifling articles to the extent of two dollars more. He was committed to the House of Refug.

THE GRAND JULY.

These gentlemen are emulating the court in their deepatch of business, and brought in two batches of bills this day. It is supposed they will conclude their isboration more, but the court will set for a day or two next week in order to relieve the jail of its numerous in mates—a work which, it will be seen, is progressing with extraordinary rapidity.

The Court adjourned until to-morrow morning at ten o'clock.

COURT OF AFFRAIA, July 6.—AFFRANCO SESSION.—NOR. 14 and 15. Noyes respondent, regions Blakeman and others appellants—two causes being an appeal and cross appeal. Argued tegether as one cause. In place of No. 46. Edward Sandford Fir appellants. Charles Fracy for respondent. Concluded at adjournment. July 7.—Nos. 46 and 48 cailed and passed. No. 40. Hancex respondent against Jacques, appellant brought on to regument. Appeal of mired without costs and without projudes. Robert Emmet for appellant. Nathariel II, blum for respondent. No. 86. The people defendants in error, against Manley, plaintiff in error. Argued, Henry A. Gri weld for plaintiff in error. John McKeon for defendants in error. No. 80. Teastrock Nos. 61 and 12, called and passed. No. 53. goas off by connect.

COMMERCIAL APPAIRS.

MONBY MARKET

Thursbar, July 8—6 P. M.

All the leading funcies were in active demand at the first board and the tran actions were not only at botter prices, but principally for each. Daughin Company advanced 1% per cent; Detaware and Hudson River Railroad, %; hetropolitan Bank, 1; Michigan Central Railroad, %; Horsone and Kayport, %; Norwich and Worsonster, %; Madison and Indianapolis Railroad, %; Harlem, %; Northern Indiana Railroad, 2; New Jersey Zino, %; Montgomery Mining, %; Hudson River Eathroad, 1.

At the record board the market was well sustained, and closed firm at our quotations. Daughin wont up 1% per closed firm at our quotations Dauphin went up 1% per cent. The slight reaction noticed in some of the lead-ing railroad stocks, will doubtless have a favorable in-

realizing, and new operators coming in.
Our files by the steamship Canada do not contain anything new. The telegraph has given the gist of the intelligence by this arrival from Europe. We have a long article from the London Times relative to the currency question and the effect of such large accessions to the supply of precious metals, upon prices of property and upon funded securities. The views of the writer are not new, for we have repeatedly made use of similar arguments in discussing the same subject. The principal point in the article is the probable effect of a continuance of such immense receipts of gold bullion upon annultants, compered with that upon landholders. This is clear and conclusive. In relation to the effect upon prices of articles which can be produced in unlimited quantities, the writer is not so confident. We shall give the article at

length, as soon as our space will permit.

The receipts at the office of the Assistant Treasurer of this port, to day, amounted to \$85,127.38; payments,

\$62,459 51-Lalanco, \$3.569.861 05. The earnings of the New York and Harlers Railroad Company, during the month of June, amounted to \$66,698 88, against \$54,992.08 for the corresponding month in 1851-showing an increase of \$11,706 80 for the month this year.

The Empire City Bank has opened books at its bankng house for an additional subscription to the capital stock. The fact that this institution requires more capital so soon after commencing operations, is good evidence of the productiveness of the investment. The new capital is rapidly filling up. The stock of nearly every bank in this city is above par.

The New York Equitable Insurance Company have de-

clared a semi-annual dividend of ten per cent; the Paterson Railroad Company four per cent; the Fire-man's Insurance Company, of Boston, ten per cent. The report relative to a new loan for the State of Georgia having been negotiated, arose from the fact that Governor Cobb was in the city delivering the bonds for the loan of \$525,000 negotiated a few weeks since, by

Richard Schell. Esq., at a promium of five per cent.

Advices received by the steamship Canada, at Boston, from Liverpool, state that the agents who wont out early in June, by the Africa, for the purpose of negotiating the sale of one-haif of the Nicaragua canal right, were progressing favorably with their plans. It is also stated that a company is about being formed, in Liverpool, for the construction of a line of steamships to ply between that port, Nicaragua and Australia-the capital to be

six hundred thousand pounds sterling.
The bids for the \$200,000 loan of the Sciota and Hock ing Valley Railroad Company bonds were opened, according to the announcement, at the office of Winslow, La-nier & Co., yesterday afternoon. There were bids for \$40,000, ranging from 82 52-100 to 91 20-100. The subjoined is a list of the successful bidders :-

The first annual report of the Pennsylvania Coal Com pany has been presented to the stockholders, and gives a very favorable account of operations during the year ending May 1st, 1852. The rapid improvement in the market value of the stock is satisfactorily accounted for in this report:-

PANNSYLVANIA COAL COMPANY-RECEIPTS AND EXPENDE

\$971,158	By sales of east to May 1, 1852
53,232	chandise on Company's road, profits on lum- ber targes &c By coalen hand at depots, and in hands of the
95.147	Delaware and Hudson Canal Company, May 1, 1852, estimated
1,119,587	Total
	cost of coal mined in 1851 \$225.878
	Forcad expense which include trans- portation expenses at planes, screen-
	ing coal, and repairs of cars and

track
To expenses of freighting merch dise.
To treight and tolls on canal, &c...
To balance of interest account to May
1, 1852.
To proportion of expenses at Rondout
and New York attending the receipt
and sales of coal.
To commissions of the Delaware, and
Hudron Canal Company, for sale of
coal. 23,892 25.264 971.567

Balance excess receipts......\$147,980 The quantity of coal actually brought to market dur-ing that year was \$15,000 tons, exceeding by 15,000 tons the quantity which it was estimated in the last annual re-port might be safely calculated upon. The net profits of to six per cent on the capital stock. The earnings of the partial business of the year 1850, including the profits of the Wyoming Coal Association at the time it was merged in this company, amounted to \$78 424 34 making in all \$226 404 76; or about 9% per cent on the capital stock of this company. The company have declared a dividend of 3% per cent, appropriated \$12 000 towards extinguish ing the original outlay for the opening of mines, leaving s replus of \$130,404 76 to the credit of a reserve fund

The finances of the company are therefore in a flourishing condition, and the dividends from this time out will not only be regular, but are likely to steadily fucrease. I is estimated that four hundred thousand tons of cost will be brought to market this sussen, of which a large portion has been contracted to be sold. The lands of the company at littaten and its vicinity contain an inexhaustible supply of the purest coal for an indefinite period The rullroad and its machinery were constructed to accommodate an annual transportation of seven hundred and fifty thousans tons, but they are adequate to the transportation of one million of tons. The company's coal cars number 1 400; canal boats, 301, with capacity for 125 tens each. The arrangement with the Delaware and Hudson Canal Company, for the sale of the coal o the Pennsylvania Coal Company, has been discontinued, and the company now transacts all of its own coal busi-pess. The requisite yards in the city of New York and Brocklan, in addition to the four blocks of ground and piers owned by the company at Williamsburg, have been procured, and every facility provided for supplying the cost with despatch to the steam marine at this port-Suitable land has also been obtained at moderate cost, and a large depot established at Port Bwen, on the Hudson river, near the entrance of Rondout creek with docks and harins for the reception of the boats as they arrive from the canal and the shipment of the coal going to towns on the Hud-on river and the New York canals, and to the various ports in the Eastern States.

The approxed statement exhibits the liabilities a	nd as
ets of the company on the 1st of May, 1852:-

Profit and loss in 1850. \$78.424
Frofit and loss in 1851. 147.950 \$226.404
The capital stock and permanent bonds of the com-

sary amount to \$3,525.080, which is large enough, and should not, under any circumstances, be increased. The propensity to be continually increasing the capital of

incorporated companies is so great that most disastrous people have, a many instances, been realised. The

Peleware and Hudson Canal and Goal Company is an litestration of the truth of this, and the Conneytvania Coal Company should avoid the rock upon which many other companies have nearly foundered. Not carnings that will give eight and ten per cent on the pre cut onpital are much better than an amount that would give a smaller per cent on a much larger capital. The Delaware and Hudson Canal Company have more than doubled their capital since it commenced operations, and the per cent dividends now are only about one quarter what they were in the early history of the corporation.

The Boston papers mention that the treasurer of Massachusette has received and accepted an offer, through Mr. Belmont of New York, in behalf of the Rothrebitds, for the issue of \$100.000 State corp, suthorized under the act for the erection of the second hospital for the insane.

act for the erection of the second hospital for the insune. The scrip is made payable in twenty years, at five per cent, and the terms are \$104 52
